What is Going On Tonight

Company G. Connecticut Infantry will drill at State Armory, Pleasant street, tonight at 8 o'clock. The drill will be held at 751 Main street, at 8 o'clock. The drill will be held at 751 Main street, at 8 o'clock.

Fire of unknown origin, broke out Monday morning, about one o'clock, and destroyed two cottages in the Lake Wampanoag Northeast Shore Association colony, causing a loss estimated at about \$4,000. The cottages destroyed were owned by Dr. J. S. O'Neil and Dr. J. S. O'Neil. The cottages destroyed were owned by Dr. J. S. O'Neil and Dr. J. S. O'Neil.

Harry Barnes, a son of Mrs. O'Neil, who was sleeping in a small bungalow nearby, was awakened by the fire and gave the alarm to other cottagers, among them Dr. W. P. S. Keating, John Boucher, William A. Dawson, Henry Mathews and George Brooks, who assisted in holding the fire to the two cottages. A bucket brigade was formed but both cottages with the contents were totally destroyed.

The O'Neils estimate their loss at about \$12,000, partially covered by insurance. Dr. O'Neil's loss is about \$2,500 and is believed to be entirely covered by insurance. The O'Neils were at their home in this city Sunday night and were unaware that their cottage had been destroyed until notified by telephone Monday morning. Harry Barnes suffered burns to both hands while fighting the fire, the burns not being serious.

In the nation-wide reports of the need of new buildings, issued by the Building Age, of New York, Willimantic is rated as in need of fifty new \$3,000 homes and ten office buildings.

Camille Dagliardi, of No. 319 Main street, New Britain, will appear before the police court this (Tuesday) morning charged with reckless driving as the result of an accident Monday night at 1 o'clock at Avery's corner, South Windham. Dagliardi and a part of friends were en route to Court Wright, Fisher's Island to attend a court martial and in making the sharp curve at Avery's corner applied his brakes, the car skidding and crashing through the fence striding a tree in the Avery yard. Leonard Jeffers of Bangor, Me., and Miss Lena Wood of Willimantic were married Monday morning at 10 o'clock at St. Joseph's rectory by Rev. Otto Beaumeister. The witnesses were Frank Wood and Frances Robarge. Following the ceremony the couple boarded the Boston express on a honeymoon trip. They will reside in Waterbury, where the groom is employed.

Thomas Sterry, of No. 59 High street, has presented Laurence King, of the Windham High school faculty, for the commercial department of the school, a beautiful specimen of penmanship, framed, executed by William L. Weaver, father of Thomas L. (Tom) Weaver, superintendent of the Hartford public schools. The inscription reads, "Premium awarded to Thomas Sterry for best improvement in penmanship at the First District school, Willimantic summer term of 1931. At the bottom of the memorial is a picture of the national capital, drawn entirely by pen. Mr. Sterry was 10 years of age when he received the award and lived in the house he now occupies.

In police court Monday morning, Patrick Doyle was fined \$10 and costs by Judge Frank H. Fox the unpaid on probation for six months, for intoxication. John Anderson, guilty of intoxication was fined \$10 and costs, and as he did not have the money was placed on probation to pay his bill. John Hinds, a minor charged with reckless driving, as the result of an accident at Windham Center Saturday morning, was fined \$50 and costs. He was sent off the road to avoid possible injury to people.

Joseph Lisso, chauffeur for Willard H. Smith, Inc., was charged with reckless driving of a motor vehicle and violation of the rules of the road. The case came up out of the three-cornered collision on Main street Friday morning when the truck driven by Lisso, a Cole automobile owned and driven by Miss George H. Hopkins, collided, and the Cole struck a Ford owned by Charles Chester, of Hampton.

Witnesses for the plaintiff stated that the horn was sounded, that the Cole was being driven at a moderate rate of speed, and that Miss Hopkins had the right of way. Witnesses for the defense testified that they heard brakes being applied and heard no horn, and that the Cole was traveling at a fast rate of speed.

Neither attorney cared to argue the case and Judge Fox announced that he would find Lisso not guilty of reckless driving, but as the weight of evidence tended to show that he had not observed the rules of the road, he would find him guilty and imposed a fine of \$5 and costs. Notice of an appeal to the superior court was given by the defense and bonds were fixed at \$50, furnished by Willard H. Smith.

Charles R. Utley, 51, died Monday afternoon at 2:30 o'clock at his home in Windham Center after an illness of several weeks. Swift, sister of Rear Admiral William Swift. They had three children, two of whom survive, Mrs. Chester Cole of Brooklyn, N. Y., and a son, Rowland Utley of Chicago, Ill. Two children by his first marriage survive him, Herbert D. Utley of New London and Annie M. wife of Dr. Albert E. Wehnert, of Buffalo, N. Y.

No Trouble to Keep Skin Free From Hairs

(The Modern Beauty)
There is no need for any woman to containe superfluous hairs, because with a paste made by mixing some powdered delatone with water it is easy to get rid of them. The paste is applied for 2 or 3 minutes, then rubbed off and the skin washed. This treatment will rid the skin of hair without leaving a blemish, but care should be taken to see that you get real delatone. Mix fresh as wanted.

and a great-grandson, Edgar Richmond, all of Windham.

Emilio Chappella, of Uruguay, and Antonio Valdez Longaray, of Peru, South America, arrived at the local Y. M. C. A. Monday evening about 6:30 and put up for the night. Today (Tuesday) they will set out on their last hike, Springfield, Mass., their destination. They expect to arrive there by nightfall.

Mr. Chappella and Mr. Longaray are attending the Y. M. C. A. college at Springfield taking a course in physical culture. Upon the completion of their course at the college they are to return to their homes in South America to take up work in physical culture. Both state that the field in that line in South America offers great opportunities for young men.

They arrived in this country early in the spring and entered the summer class at the college. August 1st, at the close of the summer term, both decided that they would like to see something of this country. Soon after they set out from Springfield and hiked northward through New Hampshire, into Vermont, down along the Green Mountains, and over into New York state, going as far as Albany. They returned through Massachusetts to Springfield and rested for about a week, then set out once more. This time their walking trip carried them into Rhode Island, and through Connecticut cities as far west as Bridgeport. Here they took to the road, going over the Long Island Sound, striking the length of the island they arrived at Greenport Monday. Sailing from that place they arrived in New London Monday afternoon about 1 o'clock. The trip was then resumed and this city was their destination. Today completes their hike and a trip that has taken them several thousand miles.

Having spent so much time in the open both are pictures of health. They are dressed in clothing convenient for hiking and carry packs weighing over fifteen pounds.

They are planning for a big trip in the summer of 1932 when San Francisco will be their objective. They will make the trip to the west coast and return by foot, covering different routes while on the hike so as to see as much as possible of that section of this country.

Make This Test

Watch how your teeth respond

This ten-day test has shown to millions the way to whiter, safer teeth. It is a free test—you should make it. No other method known can do what Pepsodent does for teeth.

To end the film

The object is to fight the film, which dims the teeth and causes most tooth troubles. Dental science has worked years to do that.

Film is that viscous coat you feel. It clings to teeth, enters crevices and stays. The ordinary tooth paste does not combat it satisfactorily, so brushing leaves much of it intact.

It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Thus all these troubles have been constantly increasing, despite the tooth brush.

How we combat it

Dental science, after years of searching, has found ways to combat film. High authorities have proved this by clinical and laboratory tests.

The best dental opinion now approves these methods. Leading dentists everywhere are urging

their adoption. Millions of people, as a result, now employ them daily.

The methods are combined in a dentifrice called Pepsodent. And a 10-Day Tube is offered free, so all who will may quickly know how much it means to them.

Five much desired effects

One ingredient of Pepsodent is pepsin. Another multiplies the starch digestant in the saliva to digest the starch deposits which cling and form acid.

It also multiplies the alkalinity of the saliva, to neutralize the acids which cause tooth decay. Two factors directly attack the film. One of them keeps teeth so highly polished that film cannot easily adhere.

Pepsodent combines the best that modern science knows to combat the great tooth destroyer. It has brought a new era in teeth cleaning.

Watch it act

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coat disappears.

The local bowling alleys since their opening on Labor Day have proved the center of attraction. The bowlers are getting into shape for the winter league that is to start next week. The alleys have been repolished and are in excellent shape.

The Saturday night dance at the Community House, the first of the season, proved a worthwhile dance. The Peerless orchestra from Willimantic kept the dancers jangling all the time. Due to the warm weather and the fact that many of the summer resorts are still open, only a comfortable crowd put in an appearance.

A number of local athletes have started training for the coming track and field meet at Tataville. At dark each evening the white-clad figures can be seen running up and down on the new track south of the Community House.

A handicap tennis tournament, somewhat new for this village, will be started this week on the local courts. Nearly twenty entries have been received by the committee. From the amount of interest displayed most of the matches should be very interesting.
